**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I choose a competitive small, local DSL ISP because the large local monopoly provider I was using previously never delivered on their claimed speed promises and imposed technology limitations on their service that made it harder for me to do my job. Despite using the exact same transmission infrastructure, I have gotten consistently better speed and service from my smaller more competitive ISO. Im looking forward to that small ISP offering fiber service in my neighborhood in the future and will be livid if the FCC allows huge indifferent telecoms to build up a monopoly and avoid completion in this critical area of our nations core infrastructure.
